

WHO WE ARE

The **Pretrial Justice Institute (PJI)** has leveraged more than 40 years of experience to create a practical and proven approach to advancing safe, fair and effective pretrial justice that honors and protects all people. Our approach focuses on the four Rs: **reducing unnecessary arrests, replacing money bail, restricting detention, and raising equity.**

We believe there is no pretrial justice without racial justice. That's why PJI's staff and Board recently committed to an equity transformation to center racial justice as the foundation of our nonprofit organization's vision, mission and work.

WHAT WE DO

- Educate system actors, policymakers, community advocates and other stakeholders
- Provide targeted support for state and local reform initiatives
- Develop messaging and drive media coverage
- Build a community of reform-minded people

HOW WE CAN HELP YOU

We also offer **on-site and virtual trainings** on pretrial legal foundations, communications strategies, research, best practices and more.
